Doon Public School, Hathras

Where Excellence is Habit

DOON PUBLIC SCHOOL

Dr. Priyadarshi Nayak

- **Principal** : Doon Public School, Hathras.
- **CBSE** : Trainer & Resource Person
- **Dean** : Commonwealth Vocational University, Kingdom of Tonga, New Zealand.
- **Chairman** : CED FOUNDATION TRUST (India's Largest Principals Forum)
- **President** : Curriculum Development Committee, SPAA
- **Trainer** : National Independent School Association
- **Global Ambassador** : Human Rights & Peace

VISION

To serve our beneficiaries excellently & to the expectations.

GOAL

To become a high tech and paperless school by 2025.

MISSION

Empowering learners for learning beyond a routine curriculum & instill in students self-confidence, holistic development & values of hard work to become global leaders with the commitment to make the school paperless by 2025.

SCHOOL ANTHEM

Refrain –

Like a fortress our school proudly stands
All the ills, all the chills, She withstands
She is a teacher, protector and guide
We will work, we will strive by her side
Like a fortress our school proudly stands

Stanza –

We have chosen our life's golden aim
To enable our voyage on earth
Seeking ever the wisdom of the Doon
We are warriors of truth and mirth
We are set to redeem our pledge
Every morning and night each day
So this anthem we have lovingly built
We will sing, we will sing
All the way, All the way, All the way, All the way
Like a fortress our school proudly stands

I am happy to learn that Doon Public School Hathras is bringing out its School Magazine, in the month of July, 2019. The school aims to equip its students with valuable information related to Education sector, Child Care, Adolescent Life Skills, Values, Gender, School Well-being, and Encouraging Creativity by Sustaining Curiosity and Improving Ability among Students.

I am sure that with the very able management and dedicated teachers Doon Public School Hathras is providing a very high quality education. Both learning and teaching to mine mind, is an activity which is full of joy. Everyone in this School, I believe, is in an atmosphere of immense joyful teaching-learning environment.

I sincerely hope that DPSH will surge ahead in leaps and bounds and shall be counted amongst the best Schools.

I convey my best wishes to the Principal and the talented faculty members as well as the efficient administrative staff of the school and also its enthusiastic students who are eager to learn.

I wish everyone all happiness and pray for their success.

It is heartening to note that Doon Public School, Harthas is publishing their Annual School Magazine for the session 2018-19 shortly. I am also very happy to learn that the target of the School Management is to equip students with valuable information related to education sector, child care, adolescent life skills, values, gender and school well-being, encouraging creativity sustaining curiosity and improving ability among Students.

Our young students are the future of society and the country. I pray that they will be able to bring about a culture of tolerance, understanding, justice and forgiveness to create a civilization of love, happiness, peace and unity. My best wishes to the Management, Staff and Students of Doon Public School, Harthas in achieving their goals.

MESSAGE

I am happy to learn **Doon Public School, Hathras** is bringing out their school magazine shortly. I am confident that the school magazine will reflect all the latent talents of the students, their achievements and their contribution to the society. The school has made significant growth in the recent years attuning itself to the emerging challenges of the 21st century.

I congratulate the team of teachers under the able leadership of the School Principal and a committed management.

Wishing the school all success.

G. Balasubramanian
Former Director (ACADEMICS)
CBSE, DELHI

MESSAGE

I am glad to note that your school under your leadership is bringing out the School Annual Magazine for the session 2018-19. Bringing out a magazine at the end of the academic year by the school is a great task for the benefit of the students, teachers and parents. I believe that the creative activities being undertaken under your dynamic leadership shall motivate and inspire the staff and students apart from parents and other stakeholders. The school magazine shall provide an opportunity for the students and teachers to expose their literary taste and creative writing for the knowledge of others.

I am sure under your committed and sincere leadership the school shall explore the required knowledge and wisdom for the benefit of the students. The motto of your school as mentioned "SERVICE TO NATION" is the need of the hour and the students should be taught patriotism right from the Primary stage besides shouldering the responsibility of the Nation at the time of need. I am hopeful that the children will be exposed to various real life situations and provide courage and confidence to solve the petty problems which are full in life.

I appreciate the laurels brought by your school in the field of Academics, extracurricular and co-curricular activities.

I am sure that the students and teachers of your school shall contribute qualitative and informative writings to inspire others under your guidance in the Magazine. I take this opportunity to wish you, your teachers and all the students of your school every success in this endeavour.

With best wishes!

Shri MVV Prasada Rao
Director
COE CBSE Kakinada

MESSAGE

Doon Public School Children who are studying at School today will be adults ready for further education & to face the world in the years from 2020 to 2030 and beyond. This is a very different world from the one experienced by their grandparents, parents and teachers. Their future is being shaped by two major forces: the 4th Industrial Age driven by Artificial Intelligence, Machine Learning and allied technologies like the Internet of Things, Blockchain, 3D Printing, AR and VR, and the 4th education revolution which is disrupting the traditional education model, propelled by the same technologies.

This leads to two very important questions. The first is what should a child learn in School to prepare for an Age of intelligent assistants that can fetch any information and do low level cognitive tasks, and the consequential question as to how do we teach what should be taught.

It is often said that change is the only thing that remains constant. But what we are experiencing is the rapid rate of the change itself. And it's wider impact, across almost all fields of human endeavour.

Trying to accurately predict the future is futile. Perhaps becoming intelligent enough to build a perfect future is too. We must develop foresight and ready ourselves by being a pro-active self directed lifelong learner and defensively by building skills of critical thinking and discernment to prevent us from being swayed by misinformation.

This is the true objective of a good School education: to prepare children to prosper, flourish and thrive in an unknown and rapidly changing future.

I am extremely delighted to inform all the parents that their children are in a hand of highly qualified and efficient Principal who can guide appropriately the 21st Century learners.

With my best wishes to him and his entire team.

Former Pro Vice - Chancellor,
IGNOU & Brand Ambassador, CED Foundation

MESSAGE

Doon Public School aspires all students to succeed in their world. It offers a wide variety of challenging, enjoyable and successful curricular opportunities, athletic programmes, performing arts and musical programmes with various clubs and activities.

It is our belief that the school should be the experience of a life time. Our school experience sets the stage for success later in life and provides a lifetime of positive memories for our students.

Our School's philosophy is that every seed has the potential to flower and turn into a fruitful tree having the aspiration to go beyond the stars. In the same way when students have a strong foundation, their lives will definitely blossom and fortune will smile of them. We ardently believe that Doonites create history because their language is the sun, the moon, flowers, freedom and books.

The school has also kept up with its social commitment and humanitarian duty. We have also appointed a number of new faculty members who possess expertise in different areas. Students involved in various co-curricular, extra-curricular activities, publication task and community service training have donned the mantle successfully and displayed a great sense of duty with dedication. This has helped the school carry out many important tasks with ease. We are glad to mention that this school is carrying out its vision and we are sure that this institution will pave the path for others in the field of Academic leadership in the country.

We whole heartedly thank for all the members of Doon family who work tirelessly to strengthen the roots of the Institution. We feel fortunate to have supportive & dedicated teachers and co-operative parents whose strong bonding has been instrumental in taking the institution to great heights.

May we continue to give our students strong roots like the Banyan Tree and stronger wings to conquer the world!!

N.V. Sarat Chandran
Manager
Doon Public School
A Unit of Doon Public School Group Delhi

From Desk Of The

PRINCIPAL

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society.

At Doon we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can only be possible in a holistic, student-centric environment. The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. Students need to be provided with a platform to think, express, and exhibit their skills. It is necessary to empower them to negotiate several issues that confront them, with the teacher being a facilitator.

The school is striving hard to make the best possible efforts to inculcate strong values combining with academics and extra-curricular activities in the children. Converting every individual into a self-reliant and independent citizen, the school provides an amalgam of scholastic and co-scholastic activities.

Our approaches to learning is child centric encouraging Activity based learning and inculcating a scientific temper and a spirit of free enquiry. In our curriculum the student is the primary focus and each child is involved in the learning process. We are constantly improving our teaching methodology so that it turns learning into combination of classroom study, research and scientific discovery.

While academic excellence is our major thrust, the school is also devoted to prepare the students for life, groom them to face the challenges of tomorrow, and encourage them to be socially relevant. We constantly endeavour to always live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential, while constantly being groomed to pass out as men and women competent to bear responsibility in all walks of life.

The parents are the most strengthening power in moulding the future of children.

I am confident enough that the Doonites will make themselves stronger day by day, adding a new leaf to the grandeur of the school.

Dr. Priyadarshi Nayak
Principal

Message of the

VICE PRINCIPAL

It gives me immense joy to learn that Doon Public School has its deep root in the field of education in the city of Hathras. I feel proud and privileged to be the part of this Magnificent Institution. At this juncture, I gratefully acknowledge the yeomen service rendered by the Visionary Predecessors, dedicated teachers and ever supporting parents who have worked selflessly and tirelessly to bring glory to God and honor to our School. May God bless them with manifold blessings.

I am pleased to acknowledge that Doon Public School lays its stress not just on academic excellence but on “character formation with academic excellence”. It motivates students to “always aim high” and cultivate core values as a first place for the Divine, integrity of character and maturity in behavior, pursuit of excellence and creative genius, respect of the human person with an emphasis for elders and teachers, loyalty to the nation and a balanced understanding of the prevailing global situation.

I wish and pray that the students of Doon Public School may imbibe with the qualities of human values and become socially conscious, intellectually competent, culturally relevant, morally upright, religiously vibrant and emotionally balanced. Dear parents/guardians with your support together we can achieve the dream that you have for your wards. I can foresee that every child who has entered the Temple of Doon Public School will certainly reach the heights of glory. Best wishes for an enriching and fruitful academic year!

EDITORIAL BOARD

It is a matter of great pleasure for all of us to bring forth the virgin edition of our school annual magazine 'Reflections' which is very special to us.. Our prime aim behind working our extremely hard for REFLECTIONS is to present all the specific events of the precious year in a collective form so that in a single glance the readers may know how memorable the year was.

Reflections is the reflection of the 3 glorious years of excellence in every field. It is vivid kaleidoscope of the illustrious journey of Doonites in all its vibrant grandeur. We feel, wherever it reaches, Reflections will leave the fragrance of Doonites on the minds of the readers and will bring a radiant smile on their faces.

The school is an incarnation of self-respect, love, affection, sensibility; responsibility and compassion which puts the students into a "State of flow" and makes them genuinely want to learn. We recognize, appreciate, applaud and foster the fine blend of sensibilities in a child changing a negative outlook from drab and demoralized to bright and expectant. This school attains its eminence in the first place through the achievement of children. The magazine also espouses the School spirit which is built up within the school through the collective actions, thoughts and aspirations. All these, I believe would spur higher growth and enterprise in children.

It gives us immense pleasure to ensure that this magazine has successfully accomplished its objective. The reflection of the students' creativity and achievements is the epitome of the magazine. Students have put forth their ideas and thoughts that are too deep to be expressed and too strong to be suppressed.

I take the opportunity to thank all the contributors as their contribution is the reason that makes this magazine endearing with our readers.

MRS. PRIYANKA SHARMA

M/o Kavyansh Sharma, III B

Doon public school hathras district ka sabse best school hai yaha ka Management bahut hi acha hai principal sir ka apne staff or bachcho ke sath me bahut achcha behavior karte ha i, sabhi teachers bhi parant ki kafi I help karte hai Thanks.

MRS. REENA SIKARWAR

M/o Aarav Sikarwar, X

We are very happy with everything that the school provides for our son. He has grown in ability. We are really impressed with the fantastic atmosphere of the school. We really like the way in which the teachers teach our child. It is really very remarkable. Doon is a fantastic school and it is the best school for our child.

MRS. NEHA VERMA

M/o Saanvi Verma, II B

DOON is fantastic school for my child "All helpful teachers and staff are brilliant. My daughter has progressed and seems to be doing extremely well. "She is well looked after in school and learn a lot of things progressing everyday. " I am very happy for my child. My daughter loves school, enjoys everyday. "Thank you for helping my daughter to improve her learning and her confidence."!

MRS. RUBY JAIN

M/o Ansh Jain, III C

1. Doon Public School is very nice..
2. It has many facilities and activities...
3. The building of Doon Public school is also very big...
4. Swimming pool and canteen is also there...

MR. ABHINAY AGNIHOTRI

F/o Nihar Agnihotri, VIII A

School is very good in academics.
School takes all the responsibility to groom the future of child.
Teachers support all the students in every task.
School gives many facilities to the students for their holistic development.

MRS. BARKHA GUPTA

M/o Akshat Goyal, III C

School is providing quality education and shown excellent growth in terms of Academic and extra curriculum. Gives space to new ideas and identify the strength of kids to groom accordingly.

MRS. HIMANSHI CHAUDHARY

M/o Anirudh Pratap Singh, Prep A

I can't say enough nice things about Doon Public School. All the staff have worked hard to understand my son and help him develop as an individual, both personally and academically!!!!!!

I continue to be impressed with the system, procedure and people at Doon and could not ask for a better school for my son. Thank you so much to Doon Public School for doing this great job in our child development!!!!!!

MR. DINESH ARORA

F/o Vansh Arora, III B

'Doon' - my favourite education temple. I salute you. I m living my childhood life in form of my son its a wonderful and meaningful memorable time.

MR. VARUN MAHESHWARI

F/o Lavanya Maheshwari - II A

Doon Public School, Hathras though an upcoming school, has already made its mark, for providing quality education and personality development. The teachers - students' interaction is highly impressive. Doon Public School provide the best environment for communicating effectively in English. The teachers mostly focused on the one -to one complete development of our children. We really appreciate them for their appreciable services. Wishes for the upcoming academic years.

MRS. SHILPI GUPTA

M/o Ridhan Gupta- II A

We are glad our kid is in DOON public school, he is growing and enhancing his hidden skills with DOON, with so much activities other than studies makes him fall in love with school.

It was a delight to interact with the bright children and the bright teachers. The teachers aspire to develop their students as global citizens who are future-ready with the knowledge and skills to flourish and thrive in the future. My best wishes for a bright future of our dear nation as well as the teachers. MHTM

EVENTS

Intra class **Colouring** Competition (Pre- Nursery)

'Art is contagious pass it on'

There is no denying the link between colors and our emotions, and we even have an abundance of idioms to show what way each color can affect your mood.

Color is a factor that influences us consciously and unconsciously. To spread the brightness of colour, An Intra class colouring competition was conducted for pre nursery students on **21st April '18**. The children got worksheets in which they displayed their colouring skills. It offered a wonderful platform to them to showcase their talent in colouring. Each and every child participated passionately in the competition. Overall it was the enjoyable day for them. Results are as follows:-

Serial No.	Name of the student	Position
1.	Maahi Goyal	I
2.	Nandini Devansh	II
3.	Lavya Goswami	III

Intra class **Clay Modelling** Competition

(Nursery)

"Sculpture is the art of intelligence".

Clay is versatile & fun for kids to play with & has many benefits, allowing them to be creative, ... In some areas, clay can be sourced from the natural environment. As children explore and play with kids modeling clay, they discover how to make basic forms. Young Minds can think new and big, keeping in mind an **Intra class Clay Modelling Competition was held on 21st April'18** for nursery students. They made beautiful Caterpillars with their tiny fingers.

The motive of this competition was to stimulate the imagination of the children & enable them to give it a better shape. This enhanced their eye-hand Coordination, colouring recognition, fine motor skills & problem solving skills. This competition was the perfect platform for the creative minds of the children to meet their colourful desires and fantasy needs.

Results are as follows:-

Serial No.	Name of the student	Position
1.	Kysati	I
2.	Alinaa	II
3.	Aarav	III

Intra class Tearing & pasting Competition (Prep)

Creativity now is as important in education as literacy.'

Little kids are masters of the moment -- they love the way it feels when they smear paint on paper, ... Most important perhaps, when kids feel good while they are creating, Art helps boost self-confidence. ... They feel free to invent new ways of thinking, which extends well beyond the craft room. Art and Craft allows children to express themselves and reduces stress and anxiety; Art and Craft provides children a creative outlet, improves the academic performance of the children, promotes intellectual development and above all enables children to think out of the

box. Keeping the said notion in mind, we had organized an **Intra class Tearing and Pasting Competition for the students of class Prep on 21st April'18**. The children were cheerful and enthusiastic about the activity. With tiny hands in action, the kids skillfully tore the coloured papers and pasted them on the given picture. The pride and glory in the eyes of the participants was certainly a sight to witness. The result was announced on the basis of the most presentable entries, they are as follows:

Position	Class: Prep (Tulip)	Class: Prep (Lily)	Class: Prep (Sunflower)
I	Parineeti	Vaishnavi	Mishty Yadav
II	Alina Usmani	Lokendra	Tanishql
II	Om Garg	Ojasva	Akshat

Experiment Day

“exploring colour theory with ice cubes”

There is more to colour theory than simply observing colours. You can observe colours in nature with a colour scavenger, hunt, then challenge preschoolers to make their own colours in this colour mixing ice challenge. Preschoolers will learn all about colour theory and basic colour Science while trying this activity.

And so did our **Doon with little Doonites** in this hot April where they (**students of class Pre nursery to class 2nd**) enjoyed experiments of **Colour Mixing with ice cubes, different coloured water, water absorbing and rainbow making**. They found it interesting and magic.

Special Assembly by Teachers

“Our task, regarding creativity, is to help children climb their own mountains, as high as possible. No one can do more.”

“If you believe, everything you dream, will come true, will come true”. Doon family commenced its new session 2018-19 on **5th April 2018**, with the very first assembly and a beautiful song, organized

by the Dynamic Teachers of the school.

Doon wishes all the children to flourish in academics and co curricular activities in the new session 2018-19.

The Power of Motivation

“Help others achieve their dreams and you will achieve yours”

Teachers have a lot to do with their students' motivational level. A student may arrive in class with a certain degree of motivation. But the teacher's behavior and teaching style, the structure of the course, the nature of the assignments and informal interactions with students all have a large effect on student motivation. We may have heard the utterance, "my students are so unmotivated!" and the good news is that there's a lot that we can do to change that.

Motivational videos help to motivate others. It imbibes positivity within you. When you watch someone else is turning doom into success, you are inspired to do the same; that is you actually regain the energy to make yourself move into action. **Doonites** were shown the Motivational Videos on **9th April 2018**, showing the importance to enjoy the path that they pursue in achieving their goals. Another short film was shown to emphasize on **'Helpfulness'**.

Baisakhi Celebration

“Share our similarities, celebrate our differences”.

Baisakhi (also Vaisakhi, Vaishakhi) Festival is mainly celebrated in North India as the “Punjabi New Year”. The day of Baisakhi is considered one of the most important days among the Punjabi community. The Sikh people start the celebration by visiting the Gurdwara. It is also celebrated by other people.

Baisakhi is a spring harvest festival for Sikhs and Hindus. **It was celebrated in our school on April 13th.** It marks the Sikh new year and commemorates the formation of Khalsa panth of warriors under Guru Gobind Singh in 1699. Vaisakhi is also an ancient festival of Hindus, marking the Solar New Year and

also celebrating the spring harvest. Baisakhi was also the day when colonial British empire officials committed the Jallianwala Bagh massacre on a gathering, an event influential to the Indian movement against colonial rule.

It is celebrated on the first day of Vaisakh, which generally falls on the 13th or 14th April every year. We celebrated it by performing energetic Bhangra and Gidda dance by our enthusiastic **Doonites**. The celebration reminds us to eliminate the differences of high and low and establish that all human beings are equal.

Educational Excursion

“Education is the most powerful weapon which you can use to change the world”.

Learning should be a joy and full of excitement. It is life's greatest adventure; it is an illustrated excursion into the minds of the noble and the learned. Nature is, in fact, a suggester of uneasiness, a promoter of pilgrimages and of excursions of the fancy which never come to any satisfactory haven.

The school field trip has a long history in public education. For decades, students have piled into yellow buses to visit a variety of cultural institutions, including art, natural history, and science museums, as well as theaters, zoos, and historical sites. Schools gladly endured the expense and disruption of providing field trips because they saw these experiences as central to their educational mission: schools exist not only to provide economically useful

skills in numeracy and literacy, but also to produce civilized young men and women who would appreciate the arts and culture. More-advantageous families may take their children to these cultural institutions outside of school hours, but less-advantageous students are less likely to have these experiences if schools do not provide them. With field trips, public schools viewed themselves as the great equalizer in terms of access to our cultural heritage.

Doon students visited an agricultural field on **20th April 2018** and observed tools used in farming, discussed methods of improving farming practices which encourage sustainable development.

Celebration of World Health Day

“It is health that is real wealth and not pieces of gold and silver”.

World Health Day. The World Health Day is a global **health** awareness day celebrated every year on 7 April, under the sponsorship of the **World Health Organization (WHO)**, as well as other related organizations. World Health Day seeks to draw attention to a major global health concern each year. The day attempts to increase awareness about the major health concern and the repercussions of this concern while providing countries and organizations with materials and ideas as how to best handle these global health concerns.

Special Assembly on “World Health Day” was held on **9th April 2018 at Doon Public School**. An eye opening skit was exhibited by the students which underlined the importance of green food and neglect of junk food to achieve good health. Another dance drama performance was given by little children which directed us how we can make our **unhappy dirty Earth** a better place by collaborative programmes like **“Swachh Bharat Abhiyan”**.

Inauguration of Intramural Competition

“It's hard to beat a person who never gives up”.

Intramural Sports are organized in a way for people of the same community to be involved in athletic competition with and against each other, and is separate from the intercollegiate athletic teams that exist at DOON. Developing an after-school intramural program for students is a great way to provide resources and exposure to new sports and games. It also creates a sense of belonging to the school environment, and connection with teachers and peers outside the classroom. Intramurals may include competitions in various sports, clubs, self-directed activities, open gym, dance lessons, special events, field trips, instructional and practice opportunities.

Here at DOON, intramural sports are open to all students, faculty, and staff. The way it works is for people, a group of friends, student organizations, a faculty/staff department, to come together and form teams that will play each other in a variety of organized sports or activities.

The ‘Khelo India Programme’ by the Government of India has been introduced to revive the sports culture in India at the grass root level by building a strong frame work for all sports played in our country and establish INDIA as a great Sporty Nation.

Celebration of Labor Day

“Labours are indeed our Nation's builders”.

Labor Day is an annual public holiday that celebrates the eight-hour working day, a victory for workers in the mid-late 19th century. The argument for the eight-hour day was based on the need for each person to have eight hours labour, eight hours recreation and eight hours rest.

Worker's Day celebrates the role played by Trade Unions, the Communist Party and other **labour** movements in the struggle against Apartheid. **May Day**, as we know it refers to

various socialist and labour movement **celebrations** conducted on **1 May**.

In the early 19th century, most labourers worked 10- or 12-hour days for six days each week. The 1850s brought a strong push for better conditions. A significant part of the push began in 1855 in Sydney. On 21 April 1856, in Melbourne, the stonemasons workers staged a well-organised protest. They downed tools and walked to Parliament House with other members of the building trade. Their fight was

for an eight-hour day, effectively a 48-hour week to replace the 60-hour week. The government agreed to an eight-hour day for workers employed on public works, with no loss of pay.

To pay tribute and respect to workers, Doon Public School conducted a special assembly on the

occasion of Labor Day (A.K.A. International Workers' Day and May Day) which is celebrated on May 1.

Special dance performances were performed by the Doonites to give the message of 'Dignity of Labour'

**ANOTHER FEATHER
IN HER CAP
NEHA AGRAWAL,
student of IX A
won the Gold medal
in International Karate
Championship.
We Doonites are
proud of her.**

Blue Day Celebration !!!

“Whenever I feel Blue I start breathing again”.

Blue is the colour of the sky and sea. It is often associated with depth and stability. Blue symbolizes trust, loyalty, wisdom, confidence, intelligence and truth.

In order to emphasize the importance of Blue colour, Doon Public School Of Excellence conducted Blue colour day for Nursery students on **2nd May 2018**.

The students of Nursery came dressed in different shades of Blue; they carried their favorite Blue colour object and spoke few sentences about it. They enjoyed various fun filled activities....

The little ones of Nursery celebrating their Blue colour day...

Among other things, **blue** is a color and a dreary mood. If the **blue** sky and ocean have turned gray and stormy, you might be **blue** because your day at the beach is ruined.....

Tiny tots celebrated the blue day by enjoying in the pool, engaging in the activities like hand impression, tearing and pasting and cotton impressions on paper.

Awareness of Traffic Rules

“A Little Care Makes Accidents Rare”.

Traffic Rules play a very important role in the traffic system of a country. These rules are made for avoiding traffic jams and accidents in cities and towns. Generally, traffic rules are implemented by showing different colored light signals in the road like red light, yellow light and green light.

To make students aware of the various traffic rules, an interactive workshop on Road Safety and Traffic Rules were conducted by traffic personnels for the students of Grades VI and above on **10th May 2018** under the guidance of SHO Chandpa **Mr. Vinod Kumar** and Traffic Inspector **Mr. Shaurya Kumar**. The students were briefed about various traffic rules and road signs that should be followed in order to maintain safety on roads. They were encouraged to follow the rules because even the slightest of mistakes made on the

road lead to fatal accidents. Common careless mistakes made by people were also discussed among students.

Several incidents were discussed to reinforce the information shared. Students understood the consequences of unlawful practices on road including over speeding, signal jumping, carelessness, not wearing seat belt or helmet, use of mobile phone and more . Students were also inducted to guide their parents to follow the traffic rules in order to instill a feeling of responsibility as a good citizen.

Students were told to be very vigilant and also encourage others not to break the rules. During the course of programme, self dependence and inspection qualities were also developed in children.

Celebration of Mother's Day

“A MOTHER is She who can take place of all others but whose place NO ONE ELSE CAN TAKE”.

Do you have someone who is great, spends time with you, cares for you, and is an important person? Well, I do, and she has black hair, brown eyes, kind hearted and a caring touch. That's my mom.

There is no self-seeking or opportunism in a mother's heart. Starting from human beings to birds and animals, all mothers take at most care to feed and bring up their offspring. We often see how a mother-bird's arrival in the nest stirs her young ones. This is true of human beings too. A small child can stay away from her father, but not from her mother. Even mothers are themselves unable to say why they love their children so much. The only answer to this question lies in the fact that as it is the property of a

bud to bloom into a flower, as it is the property of the sweet smell of a flower to attract honey-bees, so also does a mother possess tender love for her children.

Doon Public school celebrated **Mother's Day** on **13th May 2018**, a day to show the appreciation towards mothers and mother figures worldwide. Mesmerizing performances were given by the little children showing their affection towards their lovely mothers. Creative games with light humour and dance were played to make the feminine power feel special. Selfie corner was also loved by the mothers.

Celebration of International Family Day

“The most important thing in the world is family and love”.

Family is important because it provides love, support and a framework of values to each of its members. ... From their first moments of life, children depend on parents and family to protect them and provide for their needs. Parents and family form a child's first relationships.

The International Day of Families provides an opportunity to promote awareness of issues relating to families and to increase knowledge of the social, economic and demographic processes affecting them. It inspires a series of awareness-raising events, including national family days. In many countries, this

day highlights different areas of interest and importance to families.

The symbol of International Day of families comprises of a solid green circle with a red image in between and schematic drawing elements of a house and a heart. This symbol signifies that family are a center part of any society and they offer a supporting and stable home for all the age groups of the people.

Doon Public School celebrated “The International Day of Family” (15th of May, 2018) by conducting Special Assembly. Heart touching performances were given by the children.

Awareness on Wildlife Conservation

“THE EARTH WAS MADE FOR ALL Beings NOT JUST Human Beings”.

Wildlife conservation is a practice of protecting wild plants and animal species and their habitat. Wildlife plays an important role in balancing the environment and provides stability to different natural process of Nature.

It matters, and not just because we care about elephants, rhinos and tigers. Park rangers on the front lines of conservation are being killed. Local communities that depend on wildlife for tourism or sustenance are being robbed of their livelihoods. Corruption and intimidation are weakening law enforcement efforts. UN-screened wildlife and wildlife parts increase the risk of human health pandemics such as bird flu. And regional security is compromised as militarized groups cash in on this lucrative and rapidly growing trade, using it to finance insurrection and even terrorist activity.

Doon held a **Poster making and Slogan Writing** competition on 'Wildlife Conservation' on 4th May 2018 where the **Doonites** shown their talent by making beautiful and heart touching posters.

We held a Rally on **Wildlife conservation** on 26th May 2018. Where our **Doonites** played an effective **street play** at the most important and busiest places of Hathras. They shown the same play even before the **DM (Dr. Ramashankar Maurya)** of Hathras. He appreciated and motivated our **Doonites**. We got very good response and feedback from the citizens of Hathras.

Anti Tobacco Day

CANCER is NO JOKE So Put Down THAT SMOKE”.

Tobacco use is a global epidemic among young people. As with adults, it poses a serious health threat to youth and young adults in **INDIA** and has significant implications for this nation's public and economic health in the future. The impact of cigarette smoking and other tobacco use on chronic disease, which accounts for **80%** of Indian spending on health care.

Doon celebrated **Anti Tobacco Day on 16th May 2018** and spread awareness for the harmful effects of using tobacco in any form. Beautiful boards were decorated by **DOONITES** and they got prize also which brought a beautiful smile on their faces.

An Inter House Board Decoration Competition

Inter house events promote a healthy competition and offer opportunities to students to experiment in fields such as art, music and dance.

An Inter house Board Decoration competition was held on **Wednesday, 16th May 2018**, in **Doon**. The activity was held under two categories-Junior category (II-V) and Senior wing category (VI-IX). The Junior category was provided with the theme

'Environment & its Conservation'. The students showcased their concerns for environment and portrayed their innovative ideas for conservation of flora and fauna through wonderfully thought out pictorial presentation on the soft board.

All four Houses participated in the activity with full enthusiasm and enjoyed it thoroughly.

Summer Dhoom @ DOON

“You can take the KID out of CAMP but you cannot Take the CAMP out of the KID”.

As parents if you haven't attended any SUMMER CAMPS in your childhood, you might face difficulties in understanding the importance of these summer activities. Summer activities bring out the hidden talents that some of the parents might not have yet discovered in their kids.

Doon annual summer programme came back in a brand new avatar this time. In addition to a number of creative arts, performing arts and outdoor sports offerings, we brought to you a special workshop in Yoga and Meditation, Pottery Making, Maths Tricks, Young Scientist, Classical dance, Vocal music, Instrumental music, and Swimming.. This unique one week programme has been conceptualised to provide children with an opportunity to engage in a variety of

modules, explore different areas of interests, and rediscover the joy of learning. The programme was culminated with a showcase day for parents and kids.

All the parents and kids participated in the summer camp. They took rides, enjoyed Magic show, Foam Dance, RAIN DANCE WITH DJ.....and many more adventurous activities.

The Summer Camp was a specialized one week training programme with the objective of expanding students expertise in a chosen sport/field. The programme was centered on sporting technique and fitness.

Shinning Stars of Doon won Gold Medal in Taekwondo

There was a National Taekwondo Competition on **4th and 5th June in Shimla Himachal Pradesh** where our Doonites **Master Harshit Kumar from class VIII B** participated and won **Gold Medal** and another **Doonite Master Tejasva from class VI A** won **Rajat Medal** and made our school proud. Principal Beena Karol congratulated their parents and wished for their bright future.

Celebration of Experiment Day by Pre-Primary Kids

Doing simple science experiments in your classroom is the easiest way to teach kids to be problem solvers and critical thinkers and help them develop a curiosity about the world around them. These skills empower kids to be confident in their ability to handle life's challenges which is a life skill that cannot be overrated!

Doon held an Experiment Celebration in school on

7th July for class prep to class IInd. Ms. Neetu Kumar (Pre-primary Incharge) and Ms. Naina Garg conducted this programme together. The students were shown activities based on Inflating and D-Inflating balloon where they participated with a zeal. These kids were so excited that they were clapping themselves while enjoying these activities.

Doon celebrated Birthday of Little Kids

Doon had a celebration of birthday of all little stars on 10th July. Principal started the programme with cutting the birthday cake with kids and wishing them lots of blessings. All the teachers made this celebration more colourful and more attractive to the kids. They not only danced with them but also gave chocolates and beautiful gifts to make them comfortable and to make

them feel at home. The little kids were so excited that they were wishing each other again and again and wanted to celebrate their each birthday in school. The principal loved them and said that these kids are the beautiful future of India so it is our duty to keep them happy.

Celebration of Smile Day

“If you have only one smile in you, give it to the people you love.”

Smile from your heart; nothing is more beautiful than a woman who is happy to be herself. Peace is the beauty of life. It is sunshine. It is the smile of a child, the love of a mother, the joy of a father, the togetherness of a family. It is the advancement of man, the victory of a just cause, the triumph of truth. **Doon celebrated “Smile Day” on 12th July** in the morning assembly. School principal told the importance of smile and said

that peace starts with a lovely smile. **Dental check up of class I and II students was done by Dr. Mohit Garg during this programme.** Dr. Garg said that a good smile is the symbol of good health. Kids shown a beautiful drama under cultural activities and attractive dance performances were also presented during this programme.

Van Mahotsav @ Doon

**If you cut a tree, you kill a life.
If you save a tree, you save a life.
If you plant a tree, you plant a life.**

Van Mahotsav is a program which was started by Kulapati Kanhaiyalal Munshi(KM Munshi), the then Indian Union Minister for Agriculture and Food to create enthusiasm among masses for forest conservation and planting trees. It is now a week-long program celebrated on different days in different parts of India, but usually between **1 July to 7 July**. It began after a flourishing tree planting drive which was undertaken in Delhi, in which national leaders participated.[citation needed] The festival was simultaneously celebrated in a number of states in India. Since then, millions of saplings of diverse species have been planted with energetic participation of local people and various agencies like the forest department. Awareness spread as the chipko movement rose in popularity as a crusade to save mother earth.

We celebrated Van Mahotsav **21st July** with parents teachers meeting in the morning assembly @ Doon. Very first the principal inaugurated Van Mahotsav with plantation. Every parent and student was in green colour dress so it was over all greenery every where in school. Most of the students did cat walk in the shape of different trees and gave a message to every one **"Save Trees Save Life"**. All children brought a plant for plantation. Every one took oath to save trees and save lives on the earth. We got a message that tree plays a very important role in our lives and our life is impossible without trees. Therefore, we must take an oath to plant a tree on our kid's birthday. We can save our coming generation through this only.

Independence Day Celebration

"I was born with a fierce need for independence."

Independence Day is annually celebrated on 15 August, as a national holiday in India commemorating the nation's independence from the United Kingdom on 15 August 1947, the UK Parliament passed the Indian Independence Act 1947 transferring legislative sovereignty to the Indian Constituent Assembly. India still retained King George VI as head of state until its transition to full republican constitution. India

attained independence following the Independence Movement noted for largely non-violent resistance and civil disobedience led by the Indian National Congress (INC). Independence coincided with the partition of India, in which the British India was divided along religious lines into the Dominions of India and Pakistan; the partition was accompanied by violent riots and mass casualties, and the displacement of nearly 15

REFLECTIONS

million people due to religious violence. Doon celebrated 72nd Independence Day on **15th August where the Chief Guest was Mr. Sushil Ghule (SSP)**. The flag hoisting was done by the principal, the board of directors & the Chief Guest. The flowers were tributed at the pictures of freedom fighters immediately after the national anthem. All the directors presented a bouquet to the chief guest. The principal wished every one present there in his speech

and said that we are all the citizens of India and we must contribute something or something else in the favour of country so that our country may prosper. We should walk on the path of truth in the favour of our country. The Chief Guest **Mr. Sushil Ghule (SSP)** asked the audience to take an oath to not use plastic any more. We must plant a tree on our birthdays and on each important occasion.

Investiture Ceremony

“Lead, follow or get out of the way!”

"Leaders are not born but are made by their experiences in life". To inculcate the leadership qualities in the students and to give them a feel of functioning of the administrative body, a school prefectorial board was formed after scrupulous interviewing and selection. Doon Public School celebrated Investiture Ceremony on **15th August 2018**, in the school premises, presided over by our principal Dr. Priyadarshi Nayak. Ms. Shalya of class IX A was selected as Head-Girl and Mr. Raj of class of IX A was selected as Head-Boy. The Academic Council selected Ms. Sameeksha Dubey V A and Mr. Madhav V A as Junior Head-Girl and Junior Head-Boy respectively. Apart from this, 40 students from the four houses were also inducted into the 'Students Council' which included captains, vice Captains and prefects of various Houses. The Oath-taking ceremony was administered by the Principal Dr. Priyadarshi Nayak. The Chief Guest **Mr. Sushil Ghule (SSP) and the Principal Dr. Priyadarshi Nayak presented the badges to the Student-leaders** and advised them to be positive, humble, helping and impartial in their approach. Principal Dr. Priyadarshi Nayak further

emphasized that one has to take on responsibilities with a smile. The programme concluded with the school choir singing an inspirational song – 'I Have a Dream', which lifted the spirits of the prefects and reverberated the atmosphere with an air of motivation. The newly selected members of students' council seemed confident to shoulder the responsibilities entrusted to them. The programme was conducted by Ms. Neetu Sharma.

In his address, the Chief Guest **Mr. Sushil Ghule (SSP)** appreciated the efforts by the school for providing opportunities to the students to take part in activities like these. He also congratulated the newly appointed school prefectorial board for their preparedness to take responsibilities. He asked them to use these opportunities and balance them well with academics to excel in both. He wished well to all the members of the prefectorial board. He commended the school for having thought of an Innovation to do away with the posts of the Head Boy and Head Girl to provide an equal opportunity to all the students in administration and decision making.

Doon was chosen Testing Centre of NTA

“Lead, follow or get out of the way!”

Doon Public School was chosen centre of NTA (National Testing Agency). Central Human Resource Ministry introduced NTA which is the main institution to take online exams for admissions in higher institutions. The competitions will be transparent through this procedure. The NEET, JEE & CPMT are also included in these exams. Some other schools of country are also chosen as the centre of NTA and Doon Public School Hathras is also included in this. Principal **Dr. Priyadarshi Nayak** met **Mr. Vineet Joshi (Director General, NTA and former chairman CBSE)** and thanked him for this.

Celebrate Rakshabandhan with the President of India

“Having a Sister is like having a best friend you can't get rid of. You know whatever you do they'll still be there.”

Raksha Bandhan, also Rakshabandhan, is a popular, traditionally Hindu, annual rite, or ceremony, which is central to a festival of the same name, celebrated in parts of the Indian subcontinent, and among people around the world influenced by culture from the Indian subcontinent. On this day, sisters of all ages tie a talisman, or amulet, called the rakhi, around the wrists of their brothers, symbolically protecting them, receiving a gift in return, and traditionally investing the brothers with a share of the responsibility of their

potential care.

The students of Doon Public School met the president of India on Rakshabandhan. They got an invitation from president house. The Principal **Dr. Priyadarshi Nayak** with four girls **Ms. Mahi Sharma, Ms. Lucky Varshney, Ms. Shreyanshi Singh** and **Ms. Neha Agrawal** along with a teacher **Ms. Jagriti Mittal** celebrated Rakshabandhan @ President House.

Celebration of Krishna Janmashtami

As a human being puts on new garments, giving up old ones, the soul similarly accepts new material bodies, giving up the old and useless ones

Janmashtami, the birthday of Lord Krishna is celebrated with great devotion and enthusiasm in India in the month of July or August. According to the Hindu calendar this religious festival is celebrated on the Ashtami of Krishna Paksh or the 8th day of the dark fortnight in the month of Bhadon. Sri Krishna was born in a prison in the custody of Kansa. Vasudev, His father immediately thought of his friend Nand and decided to hand over his child to him to save Krishna from the clutch of Kansa. Krishna grew up in Gokul and finally killed his uncle, King Kansa. Sri Krishna is considered as the one of the most powerful human incarnations of the Lord Vishnu. He was born around 5,200 years ago in Mathura. The sole objective of Sri Krishna's birth was to free the Earth from the evilness

of demons. He played an important role in Mahabharata and propagated the theory of bhakti and good karma which are narrated deeply in the Bhagwat Geeta.

Doon Public School celebrated Shri Krishna Janmashtami enthusiastically in school on **1st September 2018**. It started with the welcome of the members of directors. Principal Dr. Priyadarshi Nayak wished every one on this special occasion. A melodious bhakti song was presented on the stage. Ms. Nitu Kumar Pre-primary incharge informed about Lord Krishna that Why and when we celebrate Shri Krishna Janmashtami. **A beautiful play was presented by little kids which was based on the childhood of Shri Krishna and his magical activities.**

Doon Public School got "Upcoming School Award"

There was a two days programme of Centre for Educational Development which topic was "Creation of the best School". Panel tested equality of education, quality, indian education, changes in teachers as per education and planning of schools where 80 schools and its leaders were awarded with School Excellence Awards. In which Doon Public School is also awarded for "Upcoming School Award".

Celebration of Ganesh Chaturthi with Kids & Parents

Ganesh Chaturthi is one of the major festival of India, which is largely celebrated in the Western Indian state of Maharashtra. This festival continues for 10 long days and involves great fun and enjoyment. People await this festival for the whole year to celebrate it with full enthusiasm. The occasion is also known as the "Vinayak Chaturthi" and is a major Hindu festival. Lord Ganesha is worshiped during this festival.

Ganesh Chaturthi is a grand affair that is generally observed during the Hindu month of Bhadra according to the Hindu calendar that usually falls during mid-August to mid-September. Continuing for the ten days of brand fanfare, the festival ends on the Ananta Chaturdashi. The day is celebrated as the birthday of the Lord Ganesha, the son of Shiva and parvati. Lord Ganesha is worshipped all over India by the Hindus as the Lord of wisdom, prosperity and good fortune.

Though Ganesh festival is the biggest gala of the state of Maharashtra, it is also celebrated with great pump and festivity in the state of Gujarat, Karnataka and Andhra Pradesh. This festival is also celebrated in Nepal and Sri Lanka with great enthusiasm.

Doon Public School celebrated **Ganesh Chaturthi on 13th September @ Doon with full devotion.** The programme was initiated in the presence of all directors and the principal Dr. Priyadarshi Nayak. He lit the diya and presented flowers garland to Lord Ganesha. All did prayer with Ganesh Vandna and Ganesh Aarti. Prasaad was also distributed. The principal said that Lord Ganesha is the lord of wisdom.

The "significance of riding on a mouse is the complete conquest over egoism. The holding of the ankusha represents His rule of the world. It is the emblem of divine Royalty."

Celebration of "Vishwakarma Jayanti" "May Lord Vishwakarma always be with you."

Vishwakarma Day is also known as Vishwakarma Jayanti or Vishwakarma pooja. This is a day of celebration for Vishwakarma, a Hindu God, the divine architect. He is considered as swayambhu and creator of the world. He constructed the holy city of Dwarka where Krishna ruled, and was the creator of many fabulous weapons for the Gods. He is also called the

divine carpenter. So, Doon Public School celebrated "**Vishwakarma Jayanti**" @ Doon on **17th September**. The principal and all staff did prayer on this day. The principal Dr. Priyadarshi Nayak said that whatever creativity is there in this world which is a source of life is made by Lord Vishwakarma.

Award Ceremony of topper students @ Dauji Mela

"It doesn't matter how many times you win an award, it is always very special."

The students were excited and their faces were glowing when they were awarded @ **Dauji Mela on 22nd September 2018**. This award ceremony was conducted by "**Amar Ujala**". Every one appreciated Amar Ujala to take this initiative as it was an encouragement to all toppers who didn't attend this programme from Hathras only but from other cities and towns also. The students had reached with their

teachers and parents there to get awards. The toppers of Doon, **Garv Varshney IX A, Prashant Singh VII A & Shreyanshi Singh VIII A** were awarded there and got motivated to touch the sky in their future. The principal Dr. Priyadarshi Nayak said that if the students got this award then the credit goes to their parents also.

Doon was Awarded as No.1 Co-Ed School

"The future belongs to those who believe in the beauty of their dreams."

A unique educational institution Doon Public School is situated at Meetai, Agra Road, Hathras, Utter Pradesh state of India. With an emphasis on all round development of a child, it has carved out a curriculum

that lays equal emphasis on academics...The "World Education The Human Development Magazine" declared **Doon Public School as the Best Co-Ed Day School** on the basis of fourteen

parameters in a survey. The school was awarded on **29th September 2018 at Lila Ambience in Gurugram**. This award was received by the Principal Dr. Priyadarshi Nayak. The Educational capacity, School's infrastructure, Educational

prestige and the other extra curricular activities were included in these fourteen parameters. Doon Public School was at **No.1** in city, number 54 in state and 282 in the country.

Trial of HPL-2 Cricket Tournament @ Doon

“No cricket team in the world depends on one or two players. The team always plays to win.”

Cricket is a bat-and-ball game played between two teams of eleven players on a field at the centre of which is a 20-metre (22-yard) pitch with a wicket at each end, each comprising two bails balanced on three stumps. The batting side scores runs by striking the ball bowled at the wicket with the bat, while the bowling and fielding side tries to prevent this and dismiss each player (so they are "out"). Means of dismissal include being bowled, when the ball hits the stumps and dislodges the bails, and by the fielding side catching the ball after it is hit by the bat, but before it hits the ground. When ten players have been dismissed, the

innings ends and the teams swap roles. The game is adjudicated by two umpires, aided by a third umpire and match referee in international matches. They communicate with two off-field scorers who record the match's statistical information.

The trial of HPL-2 cricket tournament was organized @ Doon from 21st October to 23rd October. The best players of other cities were selected in a day through this trial. And the best players of Hathras were selected in other two days trial. The selected players had the Ranji and IPL level.

CBSE Volley ball Cluster for Hathras Zone

“LUCK is what happens when preparation meets opportunity.”

Central Board of Secondary Education (CBSE) physical education and sports organises a yearly school competition for all the clusters, Zonal and National level for the students of its schools to encourage more student participation in sports and physical activities. The event was held for girls. **The Chief Guest was Dr. Vachaspati Kulwant, the Pro Vice-Chancellor of the University of Patanjali**. He is also a president of Children's Education Trust Delhi. The principal Dr. Priyadarshi Nayak welcomed all the participants and messaged that “Khelega Hathras to khilega Hathras.” This was to encourage, promote and give a platform to girl children to participate in the Inter School Sports and Games Competitions.

This competition for volleyball was for cluster-IV, which included Allahabad region (East Zone) **Gonda, Hardoi, Kanpur, Unnao, Jhansi, Lucknow, Agra, Barabanki, Mainpuri, Etawah, Ferozabad,**

Farrukhabad, Jalaun, Hamirpur, Lalitpur, Sitapur, Lakhimpur Kheri, Behraich, Mahoba, Balrampur, Shravasti, Kannauj, Rai Bareilly, Banda, Fatehpur and Auraiya. Opening ceremony was on 13th October 2018, closing ceremony was on 15th October 2018

In the CBSE Volleyball Cluster IV Closing Ceremony, the winning team Vidya Gyan Sr. Sec. School, Sitapur in U-19 Category and Samvid Gurukulam Sr. Sec. School, Mathura in U-17 Category. The runner-up teams in U-19 is Jagran Public School, Lucknow and in U-17 is Army Public School, S.P. Marg, Lucknow. The Chief Guest S.P. Hathras, **Shri Jai Prakash** awarded the winning teams. The Management Committee and Principal Dr. Priyadarshi Nayak congratulated the teams and blessed them for their brighter future. The event was a grand success.

Excursion to Kidzania

'Learning should be a joy and full of excitement. It is life's greatest adventure; it is an illustrated excursion into the minds of the noble and the learned.'

An excursion is a trip by a group of people, usually made for leisure, education, or physical purposes. It is often an adjunct to a longer journey or visit to a place, sometimes for other (typically work-related) purposes.

Short excursions for education or for observations of natural phenomena are called field trips. One-day educational field studies are often made by classes as extracurricular exercises, e.g. to visit a natural or geographical feature.

Our school organized an outing to Kidzania in Noida for all the wings right from class 1st to 9th on 12th of November. The students were provided an opportunity to have a broader outlook. It helped the students to reduce their stress from studies and other issues. It allows kids to ease up from time to time when they lounge in the fun-filled environment.

Special Day for Children

“There are some things that we can't buy, one of such thing is our Childhood.” Enjoy the spirit of Children's Day!

Children's day in India is known as 'Bal Divas', and is celebrated on November 14th every year on the birthday of Jawaharlal Nehru, the first prime minister of India. Nehru was very fond of children, and saw them as buds in a garden. He believed that children are the future of the nation, and should be treated with complete care, affection and love.

All the kids, chin up, smile and celebrate the day dedicated specially to you! **November 14 is celebrated as Children's Day** (also called Bal Diwas) in our country and the occasion also commemorates the birth anniversary of Jawaharlal Nehru, the first

Prime Minister of India. As the schools and colleges gear up to celebrate this day, here is all you need to know about the history, importance and significance of the occasion.

Doon celebrated Children's Day where the students had fun and enjoyed games and other entertaining activities for the whole day. Teachers set up stalls of different delicious and yummy food and of-course some interesting and fantastic games stall as well.

Our few students had visited President's House to celebrate Children's day on 14th November 2018.

Divine Feelings on Dhanteras

Asur Parajaye, Devta Vijay Divas, Laxmi Vaas, Laxmi Kripa, Jay Ghosh Divas, Amrit Payo Devta, Aur Jeevan Payo Rajkumar.

According to the Hindu mythology, Lakshmi Puja should be done at the Dhanteras throughout the Pradosh Kaal (best muhurta for Lakshmi puja). Puja can be started after the sunset and end for next 1 hours and 43 min. The Dhanteras puja is also known as the Dhanwantari Triodasi, Dhanvantri Jayanti Puja, Yamadeep and Dhantrayodashi. Dhanteras Puja is not only done for goddess Lakshmi but also Kuber, who is

the god of wealth. The shubh Dhanteras Puja Muhurat for goddess Lakshmi and god Kuber is sometimes done together in many Hindu households because it is thought that this will double the benefit of prayers.

Dhanteras Puja was held @ school where everyone participated and came to know the importance and value of this puja.

Yellow Colour Day

“How wonderful the colour YELLOW is. It stands for the Sun.”

Yellow, the colour of sunshine is hope and happiness. Stands for freshness, positivity intellect and joy. On **17th Nov-2018**, the lower kindergarten of our school celebrated Yellow Day. The motive of celebrating this day was to make the kids aware of the colour yellow, its significance and to develop the fine motor skills in the students. The day began with fun filled introduction concerning the colour yellow. The whole corridor was decorated with yellow balloons and cut outs. Students were all dressed up in different hues and tints of yellow. The Colour of wisdom and

intellectual energy had positive vibes in our tender tots. Focusing on the theme, students were asked to bring a boiled sweet corn for the activity. They took the corn kernels off the cob with much care and involvement. The children enjoyed the activity and made the learning event active and sporty. A day dedicated to the yellow colour was marked with children dressed in different hues and tints of yellow. Children were not only beautifully dressed in their favorite yellow dresses but also brought yellow objects to make it a complete “Yellow Day”!

Inter House Hand writing Competition

“Your hand writing shows your personality”

Handwriting is an essential skill for children. Practicing handwriting is an incredibly important exercise for children, enabling them to develop fine motor skills and confidence. It activates the brain and contributes to reading fluency. Good handwriting is important as in the modern world, in all walks of life, people are judged by their handwriting.

An inter-house handwriting competition was held on 29th of November for classes Nursery and Prep. The students participated in it with a lot of excitement and passion.

The winners of the handwriting competition are as follows:

NURSERY (Capital Letters)	
Names	Position
Alina	Ist
Ruhi Sharma	IIInd
Khyati Varshney	IIIrd

PREP-A (Small Cursive Letters)	
Names	Position
Shivansh Bansal	Ist
Subrat Agnihotri	IIInd
Abhijeet Chaudhary	IIIrd

PREP-B (Small Cursive Letters)	
Lokendra Upadhyay	Ist
Mayank Gautam	IIIrd

PREP-C (Small Cursive Letters)	
Names	Position
Sarthak Upadhyay	Ist
Akshat Varshney	IIInd
Arya Singh	IIIrd

Doon Olympics

“Each of us has a fire in our hearts for something it's our goal in life to find it and keep it lit.”

Sport is a vigorous physical activity which involves physical exertion and skill, generally played by two teams against each other by following the set number of rules in order to win or defeat other team. Sport not only has physical benefits but it also improves your concentration and makes you more alert and attentive. It helps to enhance the overall personality of an individual and makes him more productive and alert. It also increases your social interaction and develops sportsman spirit in an individual.

Doon Olympics at Doon Public School Hathras graced by **Dr. Devendra Arora- Founder President of SPAA India**. For pre-primary, primary & secondary classes various games and sports were organized for children. **Milkha house bagged the trophy of Champion House of the year-2018** and Raman house got the Runners-up Trophy. Parents and Teachers also participated in the races.

Opening Ceremony of Play School

“We cannot always build the future for our youth, but we can build our youth for the future”.

One of the most important outcomes of play is the development of confidence in even the youngest child. Without confidence, the ability to take risks and try new things is compromised. As babies, we gain confidence by learning that our needs are important to our parents or other caregivers. Young toddlers use adults as their security home base from which to explore and learn and they gain confidence as they

uncover the many things they can do all by themselves. By the time children reach preschool age, they know they can still trust the adults in their lives, but they also have the confidence they need to take charge.

Our school had the Opening Ceremony of Play School in the last week of November which was graced by **MVV Prasada Rao, Director & COE Head, Kakinada, CBSE.**

Toddlers Achievement Ceremony

“It takes a big heart to help shape little minds”

Most parents give their children plenty of attention in terms of looking after their basic needs and showering them with toys to entertain them. In play schools, however, children are provided with the 'right' toys, i.e. those appropriate to their stage of development. Also, their play is guided so that it becomes a learning experience. The idea is that children should transfer play behaviors such as feeding a doll, changing its clothes, etc. to themselves, and thus develop self-help skills. The thinking is that if a child can go through the motions of feeding a doll, it will soon learn to feed itself.

Our chief guest **Mr. Santosh Pal, chairman of AIMS and MITM**, appreciated the tiny toddler's performance.

Book Fair @ Doon

**“I don't just want to read the books.
I want to crawl inside of them and live there.”**

Book fairs help in inculcating reading habit among people of all age groups. Many schools bring their students to book fair, which helps in creating interest among children to pick up books of their choice. Of-course, there are bargain sales to look out for. But, genuine book lovers can find books of their choice at such events. It is actually a paradise for book lovers.

Book fairs are time-honored vehicles for schools to promote literacy, and introduce students and their families to books they may not otherwise encounter. Getting children to read is one of the primary goals of schools, community education organizations, and

parent groups, and one of the most popular ways of doing that is the book fair. Though schools do raise money through book fairs, most event coordinators and booksellers agree that the main goal is literacy. “Putting books into kids' hands—not fund raising—is still the primary motivation for book fairs. There's a lot of focus on making sure that children are reading.”

Doon Public School conducted a Book Fair on 14th September to all the classes in it's premises. They went through all kinds of books, be it fiction, literature, poetry, inspirational or biographies. These kind of activities nurture their minds and souls.

School Excellence Award

“Excellence is to do a common thing in an uncommon way.”

Awards recognize the importance of excellence in teaching and mentoring as a component of graduate education and the preparation of graduate students for future service as college and university faculty.

Doon Public School is a community development institution that gives children and youth safe places to play and learn.

For adopting modern teaching techniques and implementing ultra-designed strategies following the trends of 21st century learning Doon was awarded with 'School Excellence award' by Brainfeed Magazine on **18th December-2018 @ hotel JP Palace Agra**. On behalf of school the vice principal Mr. Sanjay Sharma received this honor.

Kho-Kho Competition (Under 19 for Boys and Girls)

“Don't stop when you are tired, stop when you are done”

Kho kho is a popular tag and ancient sport from India. It is played by teams of 12 nominated players out of fifteen, of which nine enter the field who sit on their knees (chasing team), and 3 extra (defending team) who try to avoid being touched by members of the opposing team. It is one of the two most popular traditional tag games in the Indian subcontinent, the other being Kabaddi. Apart from the Indian

subcontinent, it is also played by the Indian community in South Africa. Kho-kho, traditional Indian sport, a form of tag, that is one of the oldest forms of outdoor sport, dating back to prehistoric India.

DOON took participation in Kho-Kho Competition which was held @ BLS International school by Smt. Leelawati Inter School Kho-kho COMPETITION on **30th November-2018.**

Awareness for Road Riders

“Your destination is reward for your safe driving”

Traffic on roads consists of road users including pedestrians, ridden or herded animals, vehicles, streetcars, buses and other conveyances, either singly or together, while using the public way for purposes of travel. Traffic laws are the laws which govern traffic and regulate vehicles, while rules of the road are both the laws and the informal rules that may have

developed over time to facilitate the orderly and timely flow of traffic. Traffic rules play a very important role in the traffic system of a country.

SHO Chandpa, Mr. Vinod Kumar interacted with the students and apprised them of the importance of Traffic Rules in Doon Public School on 3rd December 2018.

Principal Doon Public School was conferred Doctorate in Literature Degree at Bangkok

“Enjoy Climbing the Mountain”

In a Doctorate of Literature degree program, students are equipped with in-depth knowledge of literature and literary criticism. It lets them explore different approaches to literary study in different periods,

preparing them for their advanced individualized research and specialization later on. The courses range from comparative literature, interpretation, and early literary forms to advanced literary criticism, modern

thought, and cultural studies, among many others. Some schools give students a choice among several specializations, such as Medieval literature, ancient Roman and Greek literature, and Victorian literature.

Dr Priyadarshi Nayak, Principal, Doon Public School was conferred Doctorate in

Literature Degree by Common Wealth Vocational University, Kingdom of Tonga, Newzealand on December 10th at Bangkok, Thailand. He was honoured as International Education Consultant of the year and was appointed as Associate Dean of CVU, India Chapter.

Christmas Celebration

“Gifts of time and love are surely the basic ingredients of a truly Merry Christmas.”

Doon Public School celebrated Christmas Eve on 24th December'2018 with great fervor and enthusiasm. The Pre-Primary wing wore a festive look with bells, streamers and decorated a Christmas tree beautifully. Several activities such as decorating Christmas Trees, Christmas Cards Stockings making, cap making, Santa face making were organized for the students. Then cultural program started with the prayers of Almighty. Everybody prayed for the

permanent existence of love and peace in this violent-torn world. The children were told about the birth of Lord Jesus and the legend of Santa Claus which was followed by marvellous dance performance tiny toddlers' and the entire school vibrated with the echoes of Christmas carols. And the program ended with the gifts & candies distribution by Santa Claus to the lovely students with a message of love.

Ashayein' The Annual Function celebration

'Creativity now is as important in education as literacy.'

Doon celebrated 150 years of the Mahatma Gandhi in the second annual day function which was based on theme "Ashayein". 90% students participated in this creative event with different performances. **Shri Gopal**

Lal Yadav, Assistant secretary CBSE Allahabad and Shri Sikandar Khan , Voice Master from Mumbai graced the occasion and appreciated the performance of kids a lot on 15th December.

**"The following students and staff members were awarded on this occasion:
Academic Toppers of the year 2017-18**

1. **Ms. Surbhi Upadhyay**- Std. II A
2. **Ms. Shubhi Goyal**-Std. III B
3. **Master Himanshu Dubey**- Std. V A
4. **Master Prashant Singh**-Std. VI A
5. **Ms. Shreyanshi Singh**-Std. VII A
6. **Master Garv Varshney**-Std. VIII A

- Most Disciplined Student-** Ms. Shreyanshi Singh-Std. VII A
Most Confident Child- Ms. Akshita Agrawal
Best Student in Cultural Activities- Master Jatin Sharma-Std. VIII A
Most Active Child- Ms. Vaishnavi Singh-Prep
Best Student in Sports- Ms. Neha Agrawal-VIII A
Best Educator Award- Mr. Shubham Garg
Best Administrator Award- Ms. Ritika Sharma, Mr. Sandeep Jadon

- Best Parent Award-**
- Mrs. & Mr. Shivam Jain
 - Mrs. & Mr. Shatrudh Prakash
 - Mrs. & Mr. Devendra Singh
 - Mrs. & Mr. Vikas Arora
 - Mrs. & Mr. Pushpendra Singh Sikarwar
 - Mrs. & Mr. Sushant Sharma

- Founder Employee Award-**
- Ms. Ritika Sharma
 - Ms. Rajni Arora
 - Ms. Dolly Agrawal
 - Ms. Garima Rathi
 - Mohd. Sameer
 - Ms. Sweta Upadhyay
 - Ms. Jagriti Mittal
 - Ms. Sugandha Sharma

- Best Aaya -** Ms. Seema
Best Driver- Mr. Shyam Babu
Best Conductor- Mr. Amit

Health is first priority "Rubella Vaccination"

"Spare The Children, Give The Vaccine."

Rubella is a contagious disease caused by a virus. Most people who get rubella usually have a mild illness, with symptoms that can include a low-grade fever, sore throat, and a rash that starts on the face and spreads to the rest of the body.

Rubella vaccine is a vaccine used to prevent rubella.

Effectiveness begins about two weeks after a single dose and around 95% of people become immune.

Doon made Rubella vaccination available to all its students on 6th Dec-18 where each and every student took benefit of this.

Kitchen Queen Competition

"I'm a CHEF ...and I will not be CALM! "

To all the women out there, this is the perfect opportunity to bring out the culinary skills in you! Kitchen Queen Contest. Yes, the contest helps all women to have a meaningful time, tighten solidarity and have the opportunity to know new dishes for diversifying the cooking menu.

The search for the Kitchen Queen of the city started in the beginning of January. Doon Public School in association with **Inner Wheel Royal Club** was looking for someone who not only had the culinary skills to stand out in the crowd but also someone who was a complete home maker.

Purple Colour Day

**“I don't have a PURPLE PROBLEM.
I have a PURPLE PASSION.”**

The color purple relates to the imagination and spirituality and allows us to get in touch with our deepest thoughts. The difference between violet and purple is that violet is displayed in the visible light spectrum, while purple is simply a mixture of red and blue. Violet vibrations are the highest in the visible spectrum. Although violet is not quite as intense as purple, their essence is the same. Generally speaking, the names are interchangeable and the meaning of the colors are the same. Both colors contain energy and

strength from the color red, with spirituality and integrity from the color blue. The colors symbolize the union of body and soul, which creates a balance between our physical and spiritual energies. Purple is a colour that symbolizes compassion, creativity, dignity, royalty, magic, free spirit.

Our school held a few activities on this day as Butterfly making, Kite making and Coaster making etc...where the kids of Pre-Nursery, Prep and Nursery enjoyed a lot.

Dance Pe Chance

“Dancers Dance not to impress but to express”

Dance competition in school is not just about the trophies – it is a highly rewarding and worthwhile activity for students of all ages. Irrespective of the student aims to be an artist in future or not - a mere dance competition can help develop various fundamental skills in a child that will be useful in the long term. Dance competitions are a great way to build up an emotional resilience in a child. It enforces kids to gain emotional strength and to accept criticism and rejection gracefully. Moreover, the ability to accept tough critique helps children to deal with criticism and feedback in all aspects of life in future.

Dance competitions in schools enforce students and teachers to perform better - to meet their highest possible standards. With hours of practice, children tend to work harder for a more polished performance with better technique. It gives them a goal to work towards and strive for! And this aspect of learning is very much needed for children at a younger age.

Doon had a “Dance Pe Chance” competition on 20th January where out-sider students participated and got a chance to show their performance and were rewarded later.

Patriotism among Doonites

“Respect the Constitution of Free India”

Republic day in India is celebrated every year with great pride on 26th of January to honour the Constitution of India as it came into force on the same day in the year 1950. It had replaced the Government of India Act, 1935 into the governing document of India. New Delhi, Jan 26: Every year on this day India, celebrates the Republic Day and every citizen's chest swells with pride upon seeing the grand parade at Rajpath. It is a day which marks the adoption of the Constitution and

it was on this day in 1950 that India truly became democratic republic.

The 72nd Republic Day was celebrated on 26th January 2018 at Doon Public School. JCI Club President, Secretary and other board members graced the occasion and blessed our kids.

NSGO (National School Genius Olympiad)

“If you want to find the real competition, just look in the mirror. After awhile you'll see your rivals scrambling for second place.”

GENIUS Olympiad is an international high school project competition about environmental issues. **It is founded and organized by the largest principal's forum Centre For Educational Development Trust, Delhi.**

GENIUS Olympiad will host projects in five general disciplines with an environmental focus.

Competitions play a role in motivating students to perform and excel and offer a lot more reward than just the winning prize. Competitions offer a chance for participants to gain substantial experience, showcase skills, analyze and evaluate outcomes and uncover personal aptitude. Competitions also encourage

students to adopt innovative techniques and develop their ideas and skills.

NSGO (National School Genius Olympiad) competition was held of four different subjects as English, Maths,

GK and Science for out-sider students on 27th January where more than 400 students participated and got their certificate and medals later in a Prize Distribution Ceremony.

Honor to the Winners (Prize Distribution Ceremony) "Keep your eyes on the prize"

Academic awards were created in that spirit, with the hope they would create meaningful moments of recognition that will inspire others and reinforce the behavior that led to the reward. The academic arena offers many opportunities for rewarding students for their efforts, achievements, and contributions to the school and the community. Prize distribution function is a pride day for the students. It gives them chance to show their worth.

Students can be recognized for a number of accomplishments, including improved academic standing, a demonstration of their love of learning, or

because they have shown exemplary attitude and behavior. Some will lead by example while others will be determined to learn, no matter the obstacles. School administrators will find great pride in discovering the numerous ways students should be recognized.

Doon held a Prize distribution Ceremony on 16th Feb @ Doon where all the students assembled along with their parents to collect their prizes of "Dance Pe Chance", "NSGO Competition" and Colouring Competition which were held in the month of January.

3rd Convocation Ceremony & Grandparents Day

"The future belongs to those who believe in the beauty of their DREAMS."

"Grandparents, like heroes, are as necessary to a child's growth as vitamins."

If you're willing to stand for what you believe in.....you won't need advice from others, because you will be able to handle whatever comes.

Grandparents play an important role in the lives of their grandchildren, though it is often indirect. Most of their significance to children is seen through the support and help they give to their parents.

Grandparents are often seen as "stress buffers," family "watchdogs," "roots," "arbitrators," and "supporters."

Grandparents always have their door open when you are in need of a hug. Appreciate your grandparents while they are around. Listen to their stories, cherish their love and spend time with them. It is as good for you as it is for them.

Grandparents are a valuable resource because they have so many stories and experiences from their own lives to share. Oftentimes children will listen to

grandparents even when they are not listening to their parents or other adults. Grandparents also offer a link to a child's cultural heritage and family history. Children understand more of who they are and where they come from through their connection with their grandparents.

Doon organized its "3rd Convocation Ceremony" of Prep students and "Grandparents Day Celebration" on 28th March where all the Grandparents of the students were invited. It was a Convocation Ceremony for Prep students only however, students of prep and Nursery performed wonderful dance performance for their Grandparents. The theme of song and dance was based on Grandparents only. The Chief Guest **Mr. Arun Jain**, District Governor, Rotary Club appreciated the students and the idea to honor the Grandparents as well. Teachers wished their students for their upcoming session through a Good Luck Song.

HOLI Milan

"HOLI is a special time of year to remember those who are close to our hearts with splashing colours."

Holi is celebrated in the spring season because it is welcoming spring. Hindus believe that spring is full of colours so they throw coloured water on each other.

In spite of being such a colourful and bright festival, there are various aspects of Holi which make it so significant for our lives. Though they might not be so apparent but a closer look and a little thought will reveal the significance of Holi in more ways than meets the eyes. Ranging from socio-cultural, religious to biological there is every reason why we must heartily enjoy the festival and cherish the reasons for its

celebrations.

So when it's time for Holi, please don't hold yourself back and enjoy the festival to the hilt by participating with full enthusiasm in every small tradition related to the festival.

To remove all the negativeness and to bring closer each other, **Doon organized a HOLI MILAN PARTY on 19th March 2019 where most of the teachers performed** dance, sang and cut jokes on this colourful occasion. And yes.....they enjoyed yummy lunch also.

Training & Development

Website : www.doonpublicschoolhathras.in

Workshop on English Language Lab

“Use soft words and hard arguments”

The most important is the aural-oral objective, as a substantial part of the work in the laboratory has as its aim the improvements of the student’s ability to understand and to produce the spoken tongue. But the grammar objective and the remedial functions of the language laboratory are also becoming increasingly significant, as the laboratory demonstrate more and more its effectiveness in the area of grammar instruction and its facility for meeting individual student needs.

Doon had conducted an important workshop on “English Language Laboratory” for its English Teachers on 21st and 22nd May 2018 where they were taught on how to use English Language Software to teach their students. It was given by Mr. Moninder Singh from Words Worth English Language Lab, Ahmedabad. It is a platform where comprehensive and interactive digital content catering to the listening and speaking skills, is put to use in a stimulating lab environment.

Teachers were taught skills to make their teaching more effective

We can imagine a best school with eligible teachers and discipline. And you will find these two things in Doon Public School only. There was summer vacation and most of the schools were not even unlocked but a serious discussion on better studies was there between the Principal and his teachers @ Doon. There was a One Day Workshop on “Class room Management” by Ms. Nitu Arora. Teachers were informed the “Class room

Management” with proper teaching methods in this workshop. Different activities were added to make this workshop interesting. Ms. Nitu Arora in-charge of Pre-primary taught the different effective skills of Children’s education, to study the mental level of children and many other teaching skills in this workshop. The important tips on teaching methods were taught in this two hours long workshop.

Training to choose the right career

A workshop for students was held @ Doon on 8th July and the topic was "How to choose the right career" for 9th class students. Where students shared their experiences with each other. Students were informed how to choose the right career after

10th or 12th. They were informed about good colleges and good faculties. They were told that there are many other options which they can choose rather than to be a doctor, engineer, teacher or an advocate. Their doubts were cleared through this workshop.

Teachers Training on Life Skill by CBSE

"You can always improve your skills if you keep training."

Training and development involves improving the effectiveness of organizations and the individuals and teams within them. Training may be viewed as related to immediate changes in organizational effectiveness via organized instruction, while development is related to the progress of longer-term organizational and employee goals. While training and development technically have differing definitions, the two are oftentimes used interchangeably and/or together. Training and development has historically been a topic within applied psychology but has within the last two decades become closely associated with human resources management, talent management, human resources development, instructional design, human factors, and knowledge management.

There was a teachers training by **CBSE, conducted for the teachers of the region @ Doon on 15th September 2018**. Where they got all information on Life is action and the importance of the methods of teaching in schools. **Cabinet Power Minister Mr. Shrikant Sharma** was invited on this special occasion to present the certificate to all participants. All the participants teachers were awarded with the participation certificate by Cabinet Power minister Mr. Shrikant Sharma. He messaged that all teachers must take the education on a higher level and guide the students in such a way that difference can be felt easily because these children are the future of our country.

Peer Learners at International Summit held at Delhi “Keep you focus on the Summit”

Doon School students had a wonderful experience of the International Adolescent Summit in Delhi from 4th

to 6th December, 2018. They got their self confidence up through this Summit.

Workshop on Hand writing Improvement

“Never loose an opportunity of seeing anything beautiful, for beauty is God's handwriting.”

Handwriting is the writing done with a writing instrument, such as a pen or pencil, in the hand. Handwriting includes both printing and cursive styles and is separate from formal calligraphy or typeface. Because each person's handwriting is unique and different, it can be used to verify a document's writer. Handwriting is more than just a form of communication. It's part of our identity; you can

always tell if something is written by you or someone else.

Doon organized a wonderful workshop on Handwriting in the first week of January 2019 where all the students learnt how to draw each line and Cursive writing actually trains the brain to use different parts of the brain for different functions, which helps with work efficiency.

Classes on Abacus and Vedic Maths

“Amazing Mathematics breakthrough! With this SIMPLE formula your child will master the time tables by bedtime!”

Abacus is used as a tool to learn calculations. Beads are moved up and down and various columns to represent the number. ... Vedic maths is entirely done in mind. Vedic math also starts at a basic level of numbers and gradually progressing to simple additions, subtractions, multiplications and division.

We had classes on Abacus and Vedic Maths for our students in the first week of February. Where students learnt a lot in an easy manner.

Workshop on “Assessment for Learning”

“Encouragement is celestial expressions.”

Assessment for learning (AFL) is an approach to teaching and learning that creates feedback which is then used to improve students' performance. Students become more involved in the learning process and from this gain confidence in what they are expected to learn and to what standard.

Assessment decisions are made in the context of course objectives and constrained by class size and grading time allotted. We'll cover principles of feedback and evaluation of student work as well as practical advice. Participants will leave with the knowledge required to start an assessment plan for a

course or assignment, along with tips about assessment tools such as rubrics, group-grading forms, and multiple-choice item analysis.

Doon provided an opportunity to teachers to have this wonderful workshop on 8th January by **Ms. Mansa Pande-a renowned Soft Skills and English Trainer**, who has also been the National topper of Teaching Professionals' Olympiad-CENTA 2015.

Parents Orientation Programme (Parvarish Pe Charcha) By Principal

“Everything depends on upbringing.”

Parents learn valuable information at Orientation programme and students make much needed connections with other students. Orientation helps the students ease into college life and helps parents cope as their children make the move from home to independent living.

New student orientation can provide some of that guidance, as well as help you understand what college life will be like for your student and what life away from home will look like.

Surround your children with love, happiness, and encouragement so they have the confidence to reach goals. Every child has unique gifts and talents. These special attributes can show up in a traditional school setting, but there are plenty of children who shine after the final bell has rung for the day.

Doon organized a workshop on “Parvarish Pe Charcha” By Principal for parents on 27th January. Where he introduced different techniques on “how to deal children” to the parents which is appreciated by lots of parents.

Workshop on Artificial Intelligence

“Technology, through automation and artificial intelligence, is definitely one of the most disruptive sources.”

Artificial intelligence (AI) is the ability of a computer program or a machine to think and learn. It is also a field of study which tries to make computers "smart". They work on their own without being encoded with commands.

CED organized the workshop on Artificial

intelligence (AI) on two different dates at delhi where a few Maths, Computer teachers were sent to attend the same on **17th Feb-2019 and 13th March-2019.** **The teachers were Mr. Servjeet, Mr. Shubham, Ms. Honey, Mr. Sameer, Ms. Shweta and Ms. Swati** who attended this workshop and will benefit our organization in near future.

Mother

Mother is not a word but the life for me. Mother is the most supreme human being on this earth. MOTHER , we can not express this word but we can feel it. She is the only person who got gift to start a new life. She is indefinable. She is the only one who can fight for her child with rest of the world. She can do anything to make her family happy and to protect. She is the one who motivates others in family. She is an Infinite collection of emotions. She always sacrifices her needs for others. She finds her happiness to keep others happy. They are fortunate who have mothers, and much more fortunate is one who has an understanding and big-hearted mother. Mother is very important in our life She is our strength and part and parcel for every good things happen in our life.

It is said that woman is the most beautiful creation of God. It is equally right to say a mother is the most noteworthy and unequalled creation of God. God's creation in any form owes its very origin to a mother. In Christianity it is Eve. In Hinduism it is Adishakti. It is impossible to think of life on earth without mothers.

Unfortunately the men of today, have little concern for mothers. With the rise in nuclear families, those days have gone when aged mothers used to be held in high esteem. Now after children grow up into young men and women, leaving their aged mothers behind in old-age homes. They think of us every moment but we are immersed in the thoughts of money-making every moment. We have to come out of the cocoon of materialism and serve our mothers who brought us into this beautiful world. Summing up, we can say that without mother's love life is full of misery. One's mother is his/her best friend, best philosopher and a best guide.

WATER

**Ashish Kumar Baliyan
Class X**

Water is a boon
Water is a life
Without any water
nothing will survive
We need water and
earth needs too.
Don't waste it,
we can't make mistake
We must save water for
Everyone's sake

Thanatophobia, or Fear of Death

Thanatophobia, or fear of death, is a relatively complicated phobia. Many, if not most people are afraid of dying. Some people fear being dead, while others are afraid of the actual act of dying. However, if the fear is so prevalent as to affect your daily life, then you might have a full-blown phobia. Many people's fear of death is tied to their religion beliefs, particularly if they happen to be going through a period of questioning.

Some people think that they know what will happen after death, but worry that they may be wrong. Some believe that the path to salvation is very straight and narrow, and fear that any deviations or mistakes may cause them to be eternally condemned. Religious beliefs are highly personalized, and even a therapist of the same general faith may not fully understand a client's beliefs. If the fear of death is religiously based, it is often helpful to seek supplemental counseling from one's own religious leader. However, this should never be used to replace traditional mental health counseling.

There is course of treatment largely depends on the client's personal goals for therapy. Is she trying to resolve a religious conflict? Does he simply want to be able to attend halloween events without panicking? The therapist must first determine the client's expectations before designing a treatment plan.

Depending on the circumstances, a variety of talk therapy solutions may be appropriate, ranging from cognitive-behavioral to psychoanalytic. Supplemental religious counseling, medications, and other therapeutic alternatives may also be used in conjunction with therapy.

the time is very right.
The sun is at rest
to give in the morning it's best.

Wastage of Food

Jatin Sharma
Class X

Food waste or food loss is *food* that is discarded or lost uneaten. The causes of food waste or loss are numerous and occur at the stages of *producing, processing*, retailing and consuming.

Global food loss and waste amount to between one-third[1] and one-half[2] of all food produced. Loss and wastage occur at all stages of the food *supply chain* or *value chain*. In low-income countries, most loss occurs during production, while in developed countries much food – about 100 kilograms (220 lb) per person per year – is wasted at the consumption stage.[3]

A lot of the time, food loss or food waste is food that is lost during any of the four stages of the food supply chain: (1) producers, (2) processors, (3) retailers, and (4) consumers.[4] Precise definitions are contentious, often defined on a situational basis (as is the case more generally with definitions of *waste*).[4][5]^{xxxi} *Professional bodies*, including international organizations, state governments and secretariats may use their own definitions.[6]¹

Among other things, in what food waste consists of,[7] how it is produced,[8] and where or what it is discarded from or generated by.[7] Definitions also vary because certain groups do not consider (or have traditionally not considered) food waste to be a waste material, due to its applications.[9][6]² Some definitions of what food waste consists of are based on other waste definitions (e.g. agricultural waste) and which materials do not meet their definitions.[10]

Lost food may go to landfills, be put back into the food supply chain, or be put to other nonfood productive uses.[4]

- **Food waste** (which is a component of food loss) is any removal of food from the food supply chain which is or was at some point fit for human consumption, or which has spoiled or expired, mainly caused by economic behaviour, poor stock management or neglect.

Important components of this definition include:[12]

- Food waste is a part of food loss, but the distinction between the two is not clearly defined
- Food redirected to non-food chains (including animal feed, compost or recovery to bioenergy) is counted as food loss or waste.
- Plants and animals produced for food contain 'non-food parts' which are not included in 'food loss and waste' (these inedible parts are sometimes referred to as 'unavoidable food waste')[13]

Kunal Singh
Class X

Child Labour

The 2011 national census of India found the total number of child labourers, aged 5–14, to be at 10.1 million and the total child population to be 259.64 million in that age group.^[2] The child labour problem is not unique to India; worldwide, about 217 million children work, many full-time. UNICEF defines child labour differently. A child, suggests UNICEF, is involved in child labour activities if between 5 and 11 years of age, he or she did at least one hour of economic activity or at least 28 hours of domestic work in a week, and in case of children between 12 and 14 years of age, he or she did at least 14 hours of economic activity or at least 42 hours of economic activity and domestic work per week.^[23] UNICEF in another report suggests, "Children's work needs to be seen as happening along a continuum, with destructive or exploitative work at one end and beneficial work – promoting or enhancing children's development without interfering with their schooling, recreation and rest – at the other. And between these two poles are vast areas of work that need not negatively affect a child's development."

After its independence from colonial rule, India has passed a number of constitutional protections and laws on child labour. The Constitution of India in the Fundamental Rights and the Directive Principles of State Policy prohibits child labour below the age of 14 years in any factory or mine or castle or engaged in any other hazardous employment (Article 24). The constitution also envisioned that India shall, by 1960, provide infrastructure and resources for free and compulsory education to all children of the age six to 14 years. (Article 21-A and Article 45).

The law mandates free and compulsory education to all children aged 6 to 14 years. This legislation also mandated that 25 percent of seats in every private school must be allocated for children from disadvantaged groups and physically challenged children. (It is not applied though)

India formulated a National Policy on Child Labour in 1987. This Policy seeks to adopt a gradual & sequential approach with a focus on rehabilitation of children working in hazardous occupations. It envisioned strict enforcement of Indian laws on child labour combined with development programs to address the root causes of child labour such as poverty. In 1988, this led to the National Child Labour Project (NCLP) initiative. This legal and development initiative continues, with a current central government funding of Rs. 6 billion, targeted solely to eliminate child labour in India.^[33] Despite these efforts, child labour remains a major challenge for India. No, child below age of 14 years shall be employed to work in any factory or mine or engaged in any hazardous employment.

IMPORTANCE OF DISCIPLINE

Lucky Varshney
Class VIII A

The word “Discipline” comes from the word “Disciple” meaning a learner. Discipline means teaching to obey certain rules. Without it, there will be complete chaos and disorder everywhere in our society.

Discipline is of great importance in every walk of our life. Without it, we cannot prosper in this world. There cannot be any peace or happiness in the family, if there is no discipline. All the members must obey the head of the family. So we must first learn the lesson of discipline at home.

We must obey the orders of our superiors. In our childhood, we do not know what is good for us. If we do as we like, then we shall be ruined. An army cannot win a battle if the soldiers do not obey the orders of the commander.

Every student should practice discipline in his school life. The teachers cannot properly teach in the class if the students are not disciplined. Just think of a school, where the students come at irregular hours, go home when it suits their sweet will. Little education can be imparted in such a school and such little education will not be of any use. Students will not be able to prepare themselves for examination, and their results will be poor.

Manu Dixit
Class VIII B

Exercising Your **BRAIN WITH VIDEO GAMES**

Believe it not, scientific research confirms video games are good for you , after all In fact, several studies (which we'll get to in a second) support the findings.

I know, it's hard to wrap your head around such a fact after years of listening to “don't sit too close to the TV, you'll ruin your eyes,” or “stop wasting your time playing video games—go outside!”

But yes, real research from credible sources has shown that playing video games actually does have health benefits—both for the brain and the body.

To start, recent studies completed by several noted research and scientific organizations have proven that playing video games could help improve the quality of life for the disabled and mentally ill.

The main study, conducted at the Max Planck Institute for Human Development and Charité University Medicine St. Hedwig-Krankenhaus in Berlin, Germany, found that playing video increases grey matter (basically, the size of your brain) and helps refine learned and hardwired skills.

In layman's terms, playing video games directly affects and impacts regions of the brain responsible for memory, spatial orientation, information organizations, and fine motor skills.

The study also reinforces the claim that, like exercise, playing games for as little as 30 minutes a day , can improve your life

CHARACTER OF MAN

Manvendra Singh Chaudhary
Class VIII A

Character is the solid foundation on which a person's entire life is based. History has, time and again, thrown the statistics at us.

Men of good character have been remarkably successful. Whether it was Thomas Edison whose inventions changed the world, or it was Abraham Lincoln who was president of the United States, or Gandhi the lone crusader of nonviolence, or Mother Teresa who chose to do social work they all had one thing in common- they were all people of character.

Character is the magic ingredient that sets you apart from the rest. Our character will determine our success and each of us has the ability and the potential to develop and strengthen our character.:

Character is a potpourri of many qualities like honesty, integrity, dependability, diligence, loyalty, compassion, sincerity, attentiveness, determination, confidence, etc. All these traits and many more sum up one's character.

Everyone has character. It is our character that defines who we are and what we will become. Some people have more fully developed, some qualities, which set them apart from the rest. While character has much to do with the mental and ethical traits that make a person, it actually refers to the unique qualities that are built into an individual's life which establish his reaction despite his circumstances.

Although character might mean a lot of qualities, the fact is that all the qualities are kind of inter-related. If you are honest automatically you are more dependable, more responsible, and more conscientious. When our overall character improves, it translates into success in all the areas of our lives.

OUR SOLDIERS

OUR REAL HEROES

Mayank Parmar
Class VIII A

India being a vast country has long boundaries to defend. It is also blessed with many natural resources. The wealth of India has always attracted foreign invaders. As a result, for thousand of years , we were ruled by foreigners . After a long struggle , we got independence. Now our independence is protected by strong arms of our defence forces. They defend our boundaries against any misadventure by enemy . Several times our rivals try to invade our boundaries. But every time it was defeated by strong & punitive action by our soldiers.

Our soldiers are strong, well trained and well equipped with latest arms . They are well capable to face any kind of challenge. Our soldiers are among the best in the world . The bravery , valour and sacrifice made by our soldiers are well recognized. Even our enemies who had to bite the dust several time now understand that they cannot face our soldiers's in direct action ,so it resorted to proxy war against our country by infiltrating large number of terrorist. Here again our soldiers have countered them successfully and effectively.

Even at the time of natural calamities our soldiers come to rescue citizens and enthusiastically participate in relief operations. As we have seen this in Jammu & Kashmir ,Nepal ,Uttarakhand and during recent flood in Tamil Nadu .In dark nights ,when we peacefully sleep, our soldiers remain vigilant on borders. When we enjoy all comforts with our family and friends. Our soldiers are brave against hardship of chilling of cold of glaciers,dust of deserts and dangers of deep forests far away from their families for the sake of our motherland.

Our soldiers are well disciplined, strong and robust. They are real heroes. We salute them

Jai hind , Jai Bharat

Fast Food

Mohit Sharma
Class X

Fast Food

According to the Women's and Children's Health Network, diet has a significant effect on children's study habits. Junk food and foods with high sugar content deplete energy levels and the ability to concentrate for extended periods of time. Energy and focus are especially crucial for school-age children. Children set the foundation for lifelong habits in their youth, making junk food particularly hazardous to their well-rounded development. Physical activity is also essential for children of all ages, and regularly eating junk food does not provide the necessary nutrients children need for sufficient energy to engage in physical activity. A lack of physical activity is harmful to physical and mental well being and may also exclude a child from critical social development.

Obesity Risk

A study published in "Pediatrics" in 2004 found fast-food consumption in children was linked with many dangerous precursors for obesity. According to this study, kids who ate fast food were more likely to consume a higher amount of calories, fat, carbohydrates and added sugars in one fast food meal. They were also less likely to consume as much fiber, milk and fruits and vegetables as children who did not eat fast food. Children who consumed more fattening foods while eating fast food were also likely, in general, to eat more unhealthy foods at other meals. According to a statement released by the journal "Nature Neuroscience" in 2010, high-calorie food can be addictive, causing children who occasionally eat fast food to learn problematic patterns of eating. These factors were found to place children who regularly ate fast food at increased risk for obesity.

Chronic Illness

According to the Prevention Institute, experts blame junk food for rising rates of diabetes, high blood pressure and stroke. Increasing rates of chronic illness affect children who regularly consume junk food. The Centers for Disease Control and Prevention predicts if current trends continue, one in three U.S. adults will have diabetes by the year 2050. Diabetes can result in disability and premature death. The Center for Food Safety noted in 2012 that obese children are also more likely to develop high cholesterol and heart disease later in life. According to the Women's and Children's Health Network, changes can happen in children's bodies even when they're young that are associated with disease at a more advanced age.

Natural

ENVIRONMENT

Monika Rawat
Class VIII A

The Environment means all the natural surroundings such as land, Air, Water, Plants, Animals, Solid, material, Sunlight, Forests and Other things. Healthy environment maintains the nature's balance as well as helps in growing, nourishing and developing all the living things on the earth. However, now a day, some manmade technological advancement spoiling the environment in many ways which ultimately disturbs the balance or equilibrium of nature. We are keeping our lives in danger as well as existence of life in future on this planet.

If we do any thing in wrong way out of the discipline of nature, it disturbs the whole environment means atmosphere, hydro sphere and lithosphere. Besides natural environment, a man made environment also exists which deals with the technology, work environment, aesthetics, transportation, housing utilities, urbanization, etc...

The Man made environment affects the natural environment to a great extent which we all must be together to save it. The components of the natural environment are used as a resources however it is also exploited by the human in order to fulfill some basic physical need and purpose of life. We should not challenge our natural resources and stop putting so much pollution or waste to the environment.

We should value our natural resources and use them by staying under the natural discipline.

Roboticists

Navya
Class VIII A

Imagine you're lifting a couch with a friend. You're both at opposite ends, and need to communicate as to when to heft it up. You could go for it at the count of three, or maybe, if you're mentally in sync, with a nod of the head.

Now let's say you're doing the same with a robot— what's the best way to tell it what to do, and when? Roboticists at MIT have created a mechanical system that can help humans lift objects, and it works by directly reading the electric signals produced by a person's biceps.

It's a noteworthy approach because their method is not the standard way that most people interact with technology. We're used to talking to assistants like Alexa or Siri, tapping on smartphones, or using a keyboard, mouse, or trackpad. Or, the Google Nest Hub Max, a smart home tablet with a camera, can notice a hand gesture indicating "stop" that a user makes when they want to do something like pause a video. Meanwhile, robot cars—autonomous vehicles—perceive their surroundings through instruments like lasers, cameras, and radar units.

But none of those robotic systems are measuring a person's flex the way this bot does. And in a situation where a person is lifting an object, a robot listening for voice commands or using cameras may not be the best approach for it to know when to lift, and how high.

The bicep-sensing robot works thanks to electrodes that are literally stuck onto a person's upper arm and connected with wires to the robot. "Overall the system aims to make it easier for people and robots to work together as a team on physical tasks," says Joseph DelPreto, a doctoral candidate at MIT who studies human-robot interaction, and the first author of a paper describing the system. Working together well usually requires good communication, and in this case, that communication stems straight from your muscles. "As you're lifting something with the robot, the robot can look at your muscle activity to get a sense of how you're moving, and then it can try to help you."

Miracle of Pluto

Ritika Arya
Class VIII A

Scientists have collected more and more evidence in recent years that a liquid ocean of water probably exists under the icy surface of Pluto—a wild prospect for a dwarf planet that orbits the sun nearly 40 times farther away than Earth does, with temperatures dropping below -380 degrees Fahrenheit. Those circumstances raise a fierce question: how could a subsurface ocean on Pluto, should it really exist, possibly stay unfrozen?

Just like a thermos is designed to insulate warm coffee from the cold elements of the outside world, so too does Pluto retain its own insulation tricks to keep its global ocean nice and toasty (relatively speaking). In a study published in *Nature Geoscience* on Monday, a team of planetary scientists demonstrate that a layer of gas likely exists just beneath the icy shell of the dwarf planet's surface, capable of conferring a warming insulation to the ocean and keeping temperatures high enough so things stay liquid. The findings help reconcile a number of contradictory mysteries, giving scientists possibly their best explanation yet for what's brewing beneath the surface of one of the solar system's most exotic celestial bodies.

Journey of Rain

I come with the signal of thunder,
And make people wonder
I come from dark cloud,
And make the noise loud.

I shread all around greenery
And take away aching misery
I give farmers a charming smile
By making their produce till a mile.

I fall with droplets of diamond,
And make unhappy people brightened.
I am like a shower,
And lend a hand to grow flower.

With mortals I had a lot of fun,
And now I am giving a way to sun
I am sweetly known as rain,
With a lot of fame.

Sandhya Chauhan
Class IX A

Artificial *Intelligence*

Sankalp Upadhyay
Class X

The term “artificial intelligence,” or the simulation of intelligence in computers or machines, was coined back in 1956, only a decade after the creation of the first electronic digital computers. Hope for the field was initially high, but by the 1970s, when early predictions did not pan out, an “AI winter” set in. When Tallinn found Yudkowsky’s essays, AI was undergoing a renaissance. Scientists were developing AIs that excelled in specific areas, such as winning at chess, cleaning the kitchen floor, and recognizing human speech. (In 2007, the resounding win at \neg Jeopardy! of IBM’s Watson was still four years away, while the triumph at Go of DeepMind’s AlphaGo was eight years off.) Such “narrow” AIs, as they’re called, have superhuman capabilities, but only in their specific areas of dominance. A chess-playing AI can’t clean the floor or take you from point A to point B. But super-intelligent AI, Tallinn came to believe, will combine a wide range of skills in one entity. More darkly, it also might use data generated by smartphone-toting humans to excel at social manipulation.

Reading Yudkowsky’s articles, Tallinn became convinced that super-intelligence could lead to an explosion or “breakout” of AI that could threaten human existence—that ultrasmart AIs will take our place on the evolutionary ladder and dominate us the way we now dominate apes. Or, worse yet, exterminate us.

Pulwama Attack

In one of the deadliest attack ever on security forces in Jammu and Kashmir, 40 CRPF personnel were martyred and several others were injured when a Jaish suicide bomber rammed a vehicle carrying over 100kg of explosives into a CRPF convoy of 70 vehicles in Pulwama district.

The responsibility for the attack was claimed by the Pakistan-based Islamist militant group Jaish-e-Mohammad. The attacker was Adil Ahmad Dar, a local from Pulwama district, and a member of Jaish-e-Mohammad. India has blamed Pakistan for the attack. Pakistan condemned the attack and denied any connection to it.

India has vowed revenge for the Pulwama attack. The revenge came in the form of the surprise air strikes on Jaish-e-Mohammad targets in Balakot. As a result, Pakistan's current economic woes and political isolation are a result of army's destructive policies.

Tanishka Gautam
Class VIII B

CHILD LABOUR

Not all children in India are lucky to enjoy their childhood. Many of them are forced to work under inhumane conditions where their hearts know no end. Though there are laws banning child labour, still children continue to be exploited as cheap labor. It is because the authorities are unable to protect children from being engaged as labourers. Unfortunately, the actual number of child labourers in India goes undetected, children are forced to work in completely unregulated conditions without adequate food, proper wages and rest. They are subjected to physical, sexual and emotional abuse. Factors such as poverty, lack of social security, the increasing gap between the rich and the poor have adversely affected children. Loss of jobs of parents, farmer's suicide, armed conflicts and high costs of health care are other factors contributing to child labour. Therefore a large number of children in India are quite strangers to the joy and innocence of their precious childhood.

पत्रिका का मुख्य उद्देश्य

डॉ० कविता विश्वास

प्रत्येक व्यक्ति में एक साहित्यकार, लेखक और कवि छुपा होता है। आवश्यकता है उसे सही मार्गदर्शन देकर उसे सटीकता प्रदान करने की ताकि उसके अन्दर छिपी प्रतिभा सभी के समक्ष उजागर हो सके इसी उद्देश्य को दृष्टिगत रखते हुये इस वार्षिक पत्रिका के माध्यम से सभी विद्यार्थियों एवं शिक्षकगणों की सृजनात्मकता को प्रकाशित किया गया है। इसके माध्यम से व्यक्ति में साहित्य के प्रति रुचि जागरूक होगी। आशा है कि इन्हीं में से कोई शेक्सपीयर तुलसी दास या मुंशी प्रेमचन्द बनेंगे।

चिड़िया की सीख

चूँ चूँ चिड़िया तेरा उड़ना
मेरे मन को भाता है।
आसमान की सैर करूँ मैं
मेरा मन ललचाता है।
चूँ चूँ चिड़िया मेरी अम्मा
कभी नहीं उड़ पाती हैं।
इसी लिए वह फर-फर उड़ना
मुझे नहीं सिखला पाती हैं
चूँ चूँ चिड़िया मुझको भी तुम
सुंदर पंख दिला देना
मुझे घोंसले में रख लेना
उड़ना मुझे सिखा देना

हम हार क्यों मान लेते हैं !!

जिंदगी में कभी कभी हम खुद भी नहीं समझ पाते की हम आगे क्यों नहीं बढ़ रहे है . हम वो क्यों नहीं कर पा रहे हैं जिसे हम सचमुच में करना चाहते हैं. ऐसी कौन सी ताकत है जिसने हमें रोक रक्खा है.

इन सब सवालों का जवाब जब हम खोजने बैठते हैं तो हमें कुछ समझ में नहीं आता की हमने अपनी ये लिमिट्स क्यों बना रखी हैं.

क्यों हमने खुद को एक दाएरे में कैद कर रखा है. हम जानते हैं की हमारे अन्दर कुछ कर दिखाने कैपेबिलिटी है- लेकिन फिर भी हम पता नहीं किस अनजान वजह से रुक जाते है.

अगर आपको भी इन सवालों ने परेशान किया है तो आज की इस कहानी को पूरा पढ़िए:

हो सकता है की ये कहानी आपने पहले भी सुनी या पढ़ी होगी लेकिन कहानी का लास्ट पार्ट ही आपके सारे सवालों का जवाब दे सकता है,

इसलिए जिन सवालों ने आपको परेशान कर रखा है उनका जवाब जानने के लिए थोडा वक्त जरूर दीजिये .

एक आदमी कहीं से गुजर रहा था, तभी उसने सड़क के किनारे बंधे हाथियों को देखा, और अचानक रुक गया. उसने देखा कि हाथियों के अगले पैर में एक रस्सी बंधी हुई है, वो सोच में पड़ गया की हाथी जैसे विशालकाय जीव लोहे की जंजीरों की जगह बस एक छोटी सी रस्सी से बंधे हुए हैं!!!

इस रस्सी को वो जब चाहे तोड़ कर भाग सकते है लेकिन वो कोशिश भी नहीं कर रहे है, ऐसी कौन सी ताकत है जिसने इन हाथियों को रोक रखा है.

उसने पास खड़े महावत से पूछा कि भला ये हाथी इतनी शांति से क्यों खड़े हैं और भागने का प्रयास क्यों नहीं कर रहे हैं?

तब महावत ने कहा, " इन हाथियों को छोटे पर से ही इन रस्सियों से बाँधा जाता है, उस समय इनके पास इतनी ताकत नहीं होती की इस बंधन को तोड़ सके. बार-बार प्रयास करने पर भी रस्सी ना तोड़ पाने के कारण उन्हें धीरे-धीरे यकीन होता जाता है कि वो इन रस्सियों को नहीं तोड़ सकते, और बड़े होने पर भी उनका ये यकीन बना रहता है, इसलिए वो कभी इसे तोड़ने का प्रयास ही नहीं करते."

"यकीन" जिसे हम विश्वास कहते हैं, बचपन से ही हमें ये यकीन दिलवा दिया जाता है की हम बंधे हुए हैं, हमारी लिमिट्स तय हैं और हम उससे आगे नहीं जा सकते.

क्योंकि बचपन में हमारे अन्दर जोश ज्यादा और ताकत कम होती है इसलिए हम बहुत बार असफल होते हैं.

हमें बार बार हर रोज ये याद दिलाया जाता है की तुम ये नहीं कर सकते और धीरे धीरे हमारा बाल मन इसे सच मानने लगता है.

फिर बड़े होने पर जब हम कुछ बड़ा करना चाहते हैं तो यहीं मन हमें बार बार रोक देता है, और हम समझ नहीं पाते की हम क्यों बार बार रुक जाते हैं.

याद रखिये दोस्तो असफलता जीवन का एक हिस्सा है ,और लगातार प्रयास करने से ही सफलता मिलती है. यदि आप भी ऐसे किसी बंधन में बंधे हैं जो आपको अपने सपने सच करने से रोक रहा है तो उसे तोड़ डालिए |

आप हाथी नहीं इंसान हैं. इसलिए जब तक जान है तब तक प्रयास करना मत छोड़िये |

किसी ने बहुत सही कहा है

गरीब पैदा होना गुनाह नहीं है लेकिन
गरीब ही मर जाना बहुत बड़ा गुनाह है

अब तय आपको करना है

गर्व

ART : A key to enable creativity

It is difficult to imagine childhood without art. From the very first finger painting on walls to coloring books filled with crayon strokes to 3D clay models, artistic expression is a driving force behind child development. Pablo Picasso said it best: "Every child is an artist." Engaging children in artistic activities plays a major role in nurturing their creative growth.

Art is not a subject that shall be taught only inside the four walls of classroom to kids but it is the way curious eyes look around the things and use them to express their creativity. Thus it's the responsibility of the parents along with teacher to encourage the artistic approach in the kids. Below are some of the ways for the same:

1. Prepare for a mess. Set up an art space where your kid can be free to experiment (and get messy!). Throw a drop cloth or a newspaper on top of your kitchen table. If weather permits, let kids paint outside.
2. **Avoid giving direction.** Don't tell your kid what to make or how to make it. Instead of saying, "Paint a rainbow," encourage her to "experiment with mixing colors using different types of brushes and paper".
3. **Speak specifically about art.** When talking to your child about his artwork, try to be precise in your comments. For instance, instead of giving a generic compliment, saying, "I see you used a lot of purple. Why did you choose that color?"
4. **Explore your child's process.** Often the best way to encourage conversation about your child's art is simply to say, "Tell me about what you made," or ask, "Did you have fun making it?"
5. **Don't draw with your child.** When parents draw something representational while a younger child is sketching, it can frustrate him,. "It's better to be near him and let him know that you're interested and supportive of his art-making".
6. **Let it be.** When a child finishes a piece, don't suggest additions or changes. It's important for a child to feel that what she's created is enough.
Nurturing creativity helps the kid to develop mentally, socially, and emotionally. Also, creating art may boost young children's ability to analyze and solving problems.

Note: This article is collection of suggestions given by kids psychologist and educationalist.
